PROFESSIONAL SUMMARY

B.Tech Computer Science & Information Technology student (8.0 CGPA) with hands-on experience building interactive web applications using JavaScript, HTML5, CSS3, React, Node.js, Express.js and Streamlit. Experienced in responsive UI design, API integration, data visualization, Git/GitHub and DSA/OOP. Built customer-facing interfaces including an interactive DSA visualizer, financial dashboard and dynamic AI research dashboard, with a strong interest in scalable front-end engineering and modern web technologies.

TECHNICAL SKILLS

Languages: JavaScript, Python, HTML5, CSS3

Frontend: React, Streamlit, Responsive UI Design, Interactive Web Interfaces, Chart.js

Backend & APIs: Node.js, Express.js, REST/API Integration, Postman

CS Fundamentals: Data Structures & Algorithms, Object-Oriented Programming, DBMS

Tools: Git, GitHub, VS Code, Render, DuckDuckGo Search API (DDGS)

AI / Engineering: LangChain, DeepAgents, Multi-Agent Orchestration, Prompt Engineering

EDUCATION

Malla Reddy College of Engineering and Technology, Hyderabad | B.Tech, Computer Science & Information Technology | 8.0/10 | 2023–2027

Narayana Junior College, Hyderabad | Class XII (MPC) | 88% (8.8 CGPA) | 2021–2023

Gowtham Model School, Hyderabad | Class X | 100% (10 CGPA) | 2011–2021

EXPERIENCE

AI Virtual Intern | Infosys — Virtual Internship 7.0 | Jul 2026 – Sep 2026

- Architected and developed the AI Startup Idea Validator, an end-to-end web application using Python, DeepAgents and Streamlit.
- Built dynamic dashboards with real-time execution status tracking, interactive pitch-evaluation reports and conversational AI Q&A.
- Integrated specialized agents for web search, market analysis, competitor analysis, SWOT/risk, MVP scope, GTM strategy and conversational assistance.
- Integrated DDGS for live web data extraction and Groq LPU inference for responsive AI workflows.

Associate Project Manager Intern | Excelerate | Dec 2025 – Jan 2026

- Supported cross-functional project planning, deliverable tracking and execution of product milestones.
- Facilitated communication between technical teams and non-technical stakeholders and maintained project documentation.

SELECTED PROJECTS

FinWise AI — Personal Financial Copilot | Node.js, Express.js, JavaScript, Chart.js, Multi-Agent System

- Developed a GenAI-powered financial web platform with specialized News, Investment, Risk and Decision agents for automated market insights.
- Built interactive Chart.js investment-growth visualizations and automated risk warnings; deployed on Render.

DSA Visualizer | JavaScript, HTML5, CSS3

- Created an interactive web application that visualizes core data structures and algorithms through step-by-step sorting animations.
- Implemented Bubble, Selection and Insertion Sort visualizations with user-controlled animation speed for interactive learning.

AI Startup Idea Validator — Multi-Agent Intelligence Platform | Python, DeepAgents, Groq LPU, Streamlit, DDGS

- Engineered an autonomous pipeline for market sizing, competitor mapping, SWOT analysis and go-to-market planning.
- Implemented state checkpointing and context passing across agents to maintain workflow continuity and improve reasoning efficiency.

CERTIFICATIONS & ACHIEVEMENTS

Generative AI Certification – Infosys Springboard • Artificial Intelligence Primer – Infosys Springboard • Semi-Finalist, ET AI Hackathon 2026 • Agile Explorer – IBM SkillsBuild • Cybersecurity Fundamentals – IBM SkillsBuild • Software Engineering Job Simulation – Accenture Nordics • AWS Solutions Architecture Job Simulation – AWS Forage
